FOR A JOB INTERVIEW

BUSINESS, CORPORATE AND OFFICE ENVIRONMENTS

what you wear does make a difference!

ON TOP

You've got some freedom in your choices (YES!), but make sure it's professional and WRINKLE-FREE. Button downs and blouses are classics, but when you add the jacket or blazer to top it off you are showing you're interested in the job ... even if you feel overdressed.

ESSENTIALS ONLY!

Carry a portfolio, professional bag or simple purse. Portfolios are amazing at keeping you organized. You can store your resume, transcripts, references, notes and other necessities all in one place. No matter what you choose, make sure you keep your cellphone turned off and out of sight with along with other personal items.

LESS IS MORE

Consider these tips when choosing accessories to complete your outfit. SHOES & SOCKS: Dark shoes always look professional and black is a safe choice.
